Dear District President, Unit President, and/or Girls State Chairman,

I am sending this communication through your district president so you have the information and can utilize the bus for your girls state citizens, if you wish. The schedule is an example of past years and is flexible if time allows. Stops have been added in the past; ie Chamberlain, depending on the need of the unit. The girls must arrive in Vermillion on time, so we are consolidating stops when possible. A separate girls state bus account is set up. Checks can be made out to **'Girls State Bus' for \$100 per rider/seat.** Things went smoothly last year and I am hoping for the same this year. Thanks for all of your help and cooperation in getting this put together for the safety of our delegates from the western side of South Dakota. **I will need a check, the name of each girl riding the bus, address, and a phone number by May 15th.** The name of each girl with a phone number will be compiled for the bus driver in case a contact needs to be made. This also allows the driver to know how many and who are getting on at each stop. Please feel free to contact me with any questions, concerns, or requests. Again, thanks for all you do with this great program.
